Ten Cents

The DIMMER VIEW

by Max Goodwin

With Help From the CoC

An underage female was found guilty recently of purchasing a bottle of liquor at a Lemon Grove liquor store. Although she was 20 years of age, married, and looked like an adult, she was nonetheless fined \$50 for the purchase.

Because it attracted notoriety to Lemon Grove, Bob Russell, the current president of the Chamber of Commerce was apprised of the charge and conviction. But his sympathy knew certain bounds.

After a moment's reflection, Russell announced brightly, "You know, I used to buy liquor there myself . . . until I was 15."

Every Fellow Needs a Friend

The market in faith in fellow man took a sharp drop here last week when escrow firm owner Roy Davis lent a helping hand to a needy friend.

The friend, a young man rising on the business ladder of a financial firm, had issued a check for some merchandise to a small San Diego firm.

The check bounced when a deposit got to the bank too late to cover it. The young check-writer discovered this to his dismay as he was being booked in county jail on a bad check charge.

Davis, knowing that a "not sufficient funds" situation has inadvertently happened to many otherwise honest people, bailed the fellow out of the pokey.

Convinced that his friend was the victim of an honest mistake, he set about to get the charge quashed and to avert having a police record putting the friend's professional future in jeopardy on a "bum rap."

Among other steps, Davis asked a former Lemon Grove attorney to defend him. The attorney did and did it very well. He won an acquittal.

Grateful as all-get-out, the now free check writer profusely thanked Davis and the lawyer, and promptly paid the lawyer's bill.

Faith in fellow man set-back came this week when Davis learned that the check his friend had given to the attorney also bounced.

The Law and La Mesa

Not long ago La Mesa City officials became upset when burglars took household articles of value from the home of their Police Watch Commander, Lt. Bill Cook.

Burglars drove a truck to his home and in broad daylight removed furniture articles of value—including his television set.

Neighbors later admitted having seen the action, but for whatever reasons they had, failed to notify anyone that the burglary was taking place.

Some observers believe that "they didn't want to get involved" was a lesson they picked up from residents of New York City. There, citizens have even watched women being murdered without doing anything to deter it.

More recently, again in La Mesa, a truck drove up to the home of a resident who was out of town on vacation. The resident, an outgoing fellow, had told his neighbors that he would be gone a couple of weeks. At least five neighbors knew he was out of town.

A day or two after he left a truck was driven to the guy's home and the driver and his assistant were seen taking a color television from it.

A next-door neighbor, knowing of the owner's absence, approached the pair and demanded to know what they were doing.

The truck driver explained that the vacationing owner had instructed him to pick up the teevee and repair it during his absence. This assurance was all the neighbor needed.

"By the way," he said to the "repair man," "you might as well take mine and fix it, too."

Needless to say, the "repairman" with the two teevee sets, hasn't been heard from since.

ODD VEHICLE — Students from Mt. Miguel High School were seen last week pushing this strange vehicle down Broadway in Lemon Grove. The weird scene was part of the Cystic Fibrosis "Breath of Life" campaign, as students

called on local businesses to support the fight against cystic fibrosis. Quite a few dollars were raised, and the students got plenty of exercise by traveling all the way to the College Grove Shopping Center. (Vince Broesch photo)

Congressman Van Deerlin's Sixth Term Try Announced

Rep. Lionel Van Deerlin, D-San Diego, confirmed Wednesday he will seek re-election to a sixth term in Congress. Van Deerlin will run in the newly drawn 41st Congressional District, encompassing the southwest corner of San Diego County. The district includes East, Southeast and downtown San Diego, plus the communities of National City, Chula Vista, Imperial Beach, San Ysidro, Bonita, Lemon Grove and Spring Valley. It is substantially the area he has represented since 1962.

During his 10 years in the House of Representatives, Van Deerlin has risen to 25th ranking among the Democratic members of the House Commerce Committee. A former radio-TV newsman, he is the senior majority member of the Commerce Subcommittee on Communications and Power, which shapes all legislation affecting broadcasting.

Van Deerlin also has campaigned for improved railroad passenger service. He helped write the law establishing the Amtrak Rail Passenger Corp., and was instrumental in getting the San Diego-Los Angeles corridor plus north-south service on the west coast, in (Continued on Page 8)

Broadway Fire Damage Negligible

The fire did negligible damage but it created a traffic jam Friday when a plumber's torch ignited insulation in an upstairs apartment at 7939 1/2 Broadway, Lemon Grove.

T. L. Molenaar, an employee of Russell's Plumbing doused the smoldering material with water and reported it to the Lemon Grove Fire Department.

Two rigs responded and drivers seeking to see the trouble caused a traffic jam for a short period.

Dick Speaks 'Gravely' Ill

Richard Clarence Speaks, a long-time general engineering contractor, of 7968 Imperial ave., Lemon Grove, is home from the hospital.

Good Citizens Applauded For Youth Project Aid

It proved that people do care about youngsters.

Last week it was announced that this newspaper would undertake a project to help keep the Lemon Grove Youth Center in operation.

It is a campaign by which part of the proceeds of a subscription offer is turned over to the Center for much-needed equipment for youngsters.

These youngsters are those who are facing the frightening experience of becoming adults — and they have problems. Boys and girls in their early teens meet there as an alternative to wandering about.

Parents whose youngsters are temporarily "lost" know well the value of such a project. The Center is at 3145 School lane and is available for the youngsters after school hours on Fridays — 3-10 p.m. and Saturdays 10-10. Dale Woods, a professional supervisor is in attendance at the gatherings where the youngsters play pool, ping-pong, make posters, watch teevee and hi-fi and just "rap."

Here are the current list of donors. In addition to running such a list every week, once a month a financial report will be made in these columns.

First, Barbara Hollowell, of Lincoln st., Lemon Grove, sent a check for \$10. This has been turned over to the Center for whatever is its most pressing need.

Then came these 35 subscribers who are in the process of being billed: In Lemon Grove:

Supergovernment Plan Grows Again

By Dick Sims

SAN DIEGO (CNA) — County government moved another step toward regionalism Tuesday under the guise of the board of directors of the S.D. County Air Pollution Control District.

The board approved an application to the U. S. Environmental Protection Agency for \$134,634 for a study of air pollution and how this single-county region can reach federal air standards by 1975.

Rules of the county board on air pollution are in effect in all cities, as well as in the unincorporated territory. This power was given to the board by the state legislature, but in a way that may have not been intended.

The legislature has created a state air pollution control board and has divided the state into 11 regions in terms of air basins.

Because of a decision made previously and not relating to air pollution, but to regional planning, San Diego County is one region. Therefore, it was natural enough for the Board of Supervisors to become the directors of the regional air pollution district or basin.

The Grossmont Union High School District Board of Trustees met Monday night and set down guidelines under a recent law providing for free expression by students on public school campuses.

The new regulations would allow students to circulate petitions and materials of a religious nature, as well as to demonstrate with approval of school authorities.

Under the new guidelines, students would not be allowed to circulate or demonstrate in any manner of obscenity and all expressions must not violate laws or disrupt operation of schools.

Another three bedroom, two bathroom house on an approximate 6,990 square foot parcel will require a minimum bid of \$16,000 and a \$1,500 deposit. It is located at 7613 High st. Access is to a private frontage road which adjoins High street. The on-site auction will begin at 11 a.m.

Only cash, cashier's checks, certified checks, and bank or postal money orders will be accepted as deposits. The deposits will act as the consideration for 90-day options from the date of the sales.

The sales are subject to approval by the California Highway Commission and title transfers will be delayed until after Commission action.

The parcels were acquired in conjunction with the construction of Route 94 in Lemon Grove. No longer needed for such purposes, they are being sold to return them to state and local tax rolls.

LETTERS

Dear Editor,

I have just read your lead article about the appointment of Dr. Robert Sutton to the position of Superintendent of the Lemon Grove School District — a commendable appointment, I'm sure.

Further on in your article you cover other action of the School Board Trustees at the February 28 meeting. I find your facts distorted — or should I say your vision — or probably your ability to observe and report the facts accurately.

There was a contingent of residents attending the meeting voicing displeasure over the racial imbalance among employees of the school district, however we were black and white people.

I observed no Chicano residents and know of no one at

Time For 'Reign-Fall' Frost Tells Supporters

Although San Diego County elect a man who knows how difficult it is to come up with the money to meet ever escalating taxes.

"We are on record as opposing the salary increases the Board of Supervisors voted themselves recently and possible large increases to other elective offices," he said.

"We shall remove the expensive locks from the office doors and be available to our employers, you the taxpayers, at all times."

"We are opposed to SANCOC and any other proposal that will add to the tax load. I suggest to you that we freeze taxes with Frost."

Frost also re-avowed that he will hold campaign expenses to a minimum and not to accept contributions of over \$500 from any individual or organization.

'Fire Inspector' Not Sanctioned By Fire Dept.

Telephone salespeople offering to make home fire danger inspections and then attempting to sell fire alarms are making calls in the Lemon Grove-Spring Valley areas.

Several reports have been made to Lemon Grove Fire Chief Fred Dixon — and to this newspaper — regarding the calls in which the salesperson infers that he is connected with local fire protection people.

Chief Dixon said, "We make no home inspections, unless requested to do so by the resident. There has been another time or two when similar sales attempts have been made. The Department does not authorize the sale of any merchandise, equipment or service."

Chief Dixon said Fire Marshal Ray Carmody was investigating the complaints.

He noted that it was not illegal for people to sell merchandise. Some cities have restrictive ordinances against such activity, however.

One resident said the caller insinuated he was a "fire inspector."

'Fat Cats' Rejected By Bill Sumner

Bill Sumner, candidate for supervisor in the 2nd District, told more than 70 people attending a private gathering at the home of Mr. and Mrs. William Buck, that he was reaffirming his dedication to "people politics."

"Only people politics can solve people problems," he said. "Politician politics" propagate people problems."

He told the gathering that he was not a pre-packaged candidate. "I'm not one of those candidates controlled by ten fat cats and an ad agency. My candidacy was not born in a back room of a business bigwig, but in my own heart. Nobody has a string on any of it."

He noted that the agricultural sector has been virtually ignored by county government — a part that makes up a considerable part of the economic base of the agricultural section of the district.

"The zero growth syndrome in housing and development can only result in zero employment and progress," he said. "I'm for controls but stoppage of economic growth is an absurdity."

He predicted that investment capital would be leery of this area if there was a dramatic opposition to the normal growth curve.

Sumner's Campaign Dinner will be held Monday night at Don Verde's restaurant in El Cajon. "It marks the end of

HELP NEEDED — Joe Camacho, a member of the Jamul Indian tribe, pumps water out of an aging hand pump at the Jamul Indian Village. Members of the tribal council are appealing to local residents and businessmen for donations of badly needed building materials for the village, which is not eligible for federal aid because it is not a reservation. Such items as planks for a small bridge which barely supports the weight of an automobile, an electric pump to provide water for those living in the village, and water pipes are needed. Other materials, such as electric wiring, plywood, cabinet materials, etc. are also needed by the Indians living in the five-acre village, which is currently without electricity.

Famed Organist To Play Here

Gaylord Carter, a former organist for Grauman's Million Dollar theatre in Los Angeles, will be featured performer Saturday at 8 p.m. in a concert at the Southland Theatre, 3459 Imperial ave., Lemon Grove.

In addition to a program of theatre organ music, he will head an old-fashioned sing-along and play the organ for the old-fashioned silent movie "The Navigators" starring Buster Keaton — plus other short, silent subjects.

Carter will be remembered as a radio artist on such programs as California Melodies, Hollywood Hotel, the Pack and Show, and Breakfast in Hollywood Hotel, the Pack and Andy Shows nightly with his rendition of "The Perfect Song."

He was also featured as "St. at the Downtown Paramount, United Artists, Warner, Hollywood and the Fox Theatre."

The theatre project is that of Jim Hansen and Tommy Stark, co-owners of Southland Music which houses the theatre.

Reservations for the 300-seat theatre program Saturday may be made at 463-0308 for reservations. Tickets are \$2.

Rites Set For Dorothy Goodbody

Mrs. Dorothy Goodbody, a former resident of Lemon Grove and owner and operator of Goodbody Mortuary, will lie in state from noon to 6 p.m. today and from 9 a.m. to 6 p.m. tomorrow in Goodbody's Ivy Chapel.

Recitation of the Rosary is scheduled for Friday evening at 7:30 p.m. and Requiem Mass will be Saturday at 9 a.m., both in St. Joseph's Cathedral. Interment will be in Holy Cross Cemetery.

Mrs. Goodbody, with her late husband Michael Goodbody, became owner of Goodbody's Ivy Chapel in 1921. In 1945, she bought and remodeled the building at 5027 El Cajon Blvd., which became Goodbody's Boulevard Chapel.

She was active for many years in the business with her two sons, Bernard and Edward Goodbody, and with her daughter, Mrs. Patricia G. Kellogg, of Spring Valley.

She was active in many organizations including the Spring Valley Historical Society and the Mercy Hospital Auxiliary. At one time she served as organist at the old Saint John of the Cross Church in Lemon Grove.

Also surviving are 15 grandchildren. The family suggested contributions to the Bay Side Settlement House or the Mercy Hospital Building Fund.

The play will be staged Friday and Saturday evenings at 3:30 p.m. through April 15.

Ninety-seven per cent of the salt produced in the U. S. is used in industry.

Burgener's Nomination Papers OK'd By Registrar C. Sexton

Senator Clair W. Burgener has qualified for the ballot as a candidate for the Republican Congressional nomination in the new 42nd district. Burgener's petition, signed by a wide sampling of long-time supporters from many areas in the district, was certified by Charles Sexton, San Diego Registrar of Voters. Separate petitions are being filed in the Orange County section of the district this week.

The names of many prominent residents appeared on the petition in support of Burgener's candidacy. Leading the list were Vice Admiral Leslie E. Gehres, chairman of the San Diego County Republican Central Committee and Dr. Gaylord Parkinson, past chairman of the Republican State Central Committee.

Senator Burgener, who is in his second term in the State Senate, has held elective public office for 14 years. He has authored key legislation in the fields of education and welfare reform and, in addition to his Senate duties, serves as Vice Chairman of President Nixon's Committee on Mental Retardation.

The 42nd Congressional District is one of the new districts created in response to the increase in population reported for California in the 1970 census. It covers northern San Diego County as well

as the coastal section of southern Orange County. The inclusion of the Western White House in this new district means that its new Congressman will have President Nixon as one of his constituents.

Van Deerlin To Run Again

cluded in the basic national passenger train network.

The Congressman's primary goal has been full employment for his constituents. He has supported all federal programs aimed at legitimate job stimulation. He has worked to facilitate harbor dredging and related projects, since he sees the economic future of this community tied to full development of South San Diego Bay as a deepwater seaport.

Van Deerlin's efforts have twice achieved appropriations for South Bay dredging after the project failed to muster Administration support.

He has consistently supported legislation to improve the lot of consumers, minorities, the elderly and other segments which might lack traditional lobbying "clout." He was an early advocate of voting rights at age 18.

Van Deerlin has championed a strong Congressional ethics code, and is one of a relatively small number of members who regularly disclose their personal financial status.

In winning re-election in 1970, Van Deerlin received 72.1 percent of the votes cast in his district, against three challengers.

Local Band Gets Awards At Festival

Drugs, permissiveness and other charges often heaped upon youth were forced to take a back seat last week when more than 100 students from Lemon Grove turned up at the South County Band and Orchestra Festival on its campus.

The occasion was some of the most competitive musicianship for schools held in the San Diego area each year and when it was over, Lemon Grove Junior High band and orchestra members returned to their school with a perfect four for four record by sweeping the highest ratings possible.

The Trojan band opened the day's festivities, held at Crawford High School, by winning superior ratings in both stage performance and sight reading. Two hours later, the orchestra followed with superior ratings in the same categories.

The next appearance of the Lemon Grove Junior High musicians will be at their annual spring concert, March 16, in the school auditorium. In addition to the band and orchestra, the beginner's band will also perform.

DA Called In On Problem Of Water Theft

The problem of water theft from local water districts has been brought to the attention of the district attorney's office after recent increases of incidents of water "rustlers."

Recently, the Otay Water District, which supplies water to most of Spring Valley, has made several complaints against residents of the rural portions of the district who have tapped into existing water lines without a meter to determine the amount used.

The Helix Irrigation District, serving Lemon Grove, has not been plagued by the same problems, but water theft has occurred. The usual method of water theft is tapping into fire hydrants without metering devices.

The problem for Otay has been that many of the "rustlers" are located in the rural portions of the district, where it is harder to discover the thefts.

In the Helix District, the area is more densely developed and it is more difficult for the potential thief to get away with illegal connections.
